

LIFE REMEMBRANCE

Remembrance for water An exemplifying systemic solution towards one health

Tuesday, 7th November 2023 10.30-12.30

AQUATECH 2023 Amsterdam

Meeting Room D404 – RAI Entrance D – ELICIUM Building (Hall 13)

Medica, which was born with a biomedical focus oriented to the safeguard of health, includes in its industrial strategy the development and adoption of technological production processes discovering new technologies that impact the water value chain. In this way, Medica transforms the company's economic development strategy into a circular-systemic model, increasing its level of sustainability and offering Spill Over opportunities and R&D solutions to innovative product sectors. LIFE_REMEMBRANCE is one example. LIFE_ Remembrance, starting by the recycling of industrial waste of plastic material, resulting from the production of HFM (Hollow Fiber Membranes) filters, develops a circular technological solution to reduce or eliminate the release of pollutants, emerging and pathogens from water.

Agenda

- | | | |
|-------|---|--|
| 10.30 | <i>Give plastic wastes from the production of hollow-fibre membranes a second life</i> | <i>Letizia Bocchi, Board Member Medica SpA
Coordinator Life Remembrance Project</i> |
| 10.50 | <i>Material testing and performances</i> | <i>Manuela Melucci, Senior Research Scientist
CNR (Bologna, Italy) – Principal Investigator
for Life Remembrance Project</i> |
| 11.10 | <i>A demonstrated vehicle towards a sustainable, circular, resilient economy and better quality of life</i> | <i>Maria Cristina Pasi, Sustainability Specialist
VLT Water Smart industry WE</i> |
| 11.30 | <i>Matchmaking session: LIFE REMEMBRANCE meets the EU strategy</i> | |
| | ❖ <i>Water Treatment technology: LIFE REMEMBRANCE and the EU water directive</i> | |
| | ❖ <i>Policy -the WE Manifesto & the EU Water strategy</i> | |
| | ❖ <i>Environment – Novel pollutants and BATs (Best Available Technologies)</i> | |
| | ❖ <i>Circular Economy – Circularity models and Economic Growth: ESG based profitability evaluations</i> | |
| | ❖ <i>Spill Over – Evaluation of the technology adoptions by other industrial sectors</i> | |
| 12.30 | LIFE REMEMBRANCE Advisory Board Meeting | |

Since the number of participants is limited, please confirm your attendance to info@medica-spa.com before Oct 26 and indicate which matchmaking topics you are interested in.
