

**Online event!**

**Join our EJWP New Waves Festival for a preview of how EJWP participants work together for a water-smart future!**

**Online Thursday 22 April from 13:00 – 17:00 CET**  
**REGISTER NOW: [info@juniorwaterprogramme.eu](mailto:info@juniorwaterprogramme.eu)**

**13:00** Launch of New Waves towards **Zero Water Pollution** – kick-off of campaign featuring videos and multimedia concepts gathering momentum towards the June 2021 Green Week Event: 'Making Waves - Young people's views on water pollution'

**13:30** New Waves of narratives for **the Value of Water** – Meet EJWP participants who will guide us in challenges for socio-economic and governance models based on the true value of water. Scarcity, flood risk, water quality, and aquatic ecosystems are all critical in future planning. Gonzalo Delacámara, Senior Researcher at IMDEA, will provide his expert input as leader of this EJWP topic.

**14:15** New Waves of **Inspiration and Innovation** – Brainstorming warm-up for the workshop with Ap Verheggen, artist-inventor and EJWP Team Member. Ap has been inspiring people to think far beyond limitations in his SunGlacier water project. See why Ap is optimistic and how action-based optimism can help us all survive and thrive when climate change = culture change.

**15:00 Hands and Minds Together** in the workshop facilitated by EJWP participants shaping Ap Verheggen's climate + water inspiration into actions. Where are the opportunities? How do we get there together?

**16:30-17:00 Interactive Discussion** of workshop outcomes, and how they can be integrated in our Water Future...It Starts Here!

**Registration for our 3rd EJWP Group (2021 – 2023) is open until 1 May.**  
**Join our community of young water professionals and organizations!**
