

SuDS in active open recreational sport fields

Join us 14th of March @ 10:30 am using [this link](#)

Dear Colleagues and interested participants,

EJWP group 2 is pleased to invite you to attend our presentation on “**Active open recreational space in urban storm water runoff management system**”. The project is a result of collaboration with our client “University of Nis” in Serbia.

The focus of this project is on the sport recreational fields and development of the assessment tool that would allow faster and easier selection components of sustainable drainage systems.

Have a good day and hope to see you.

Sincerely,
EJWP2
